WORD given at New Life Christian Center

"Control" -- October 4th, 2026

Pastor Glen Kline

Praise you Jesus. The Lord would say to you today, not just to this man who spoke, but to you today. Many spend your days thinking you're in charge. Thinking you're in control. Thinking that I will do what your heart says but know this says the Spirit of Grace. It is by Grace you may not be able to understand exactly what I'm doing, because in the same way that you don't know what a building looks like, when I put the first stone in, we are putting the first stone in heaven.

Is building something that at this point, may be outside of your sight, you're not in control. You cannot create control by what you do. You can't even declare control by saying, oh, thank you God for doing what I want for that. That idea of control is something that I am removing from My people, My people who have been purchased with the price and say with great clarity and conviction, I'm owned by another.

--

And how He spends me is up to Him. So, Lord, we thank you today for this word. We believe, Father God, that you are a God of individual internal directive. Control that our futures are today is in your hands, not because you take it, but because we offer to live in your hand. We offer to be used by you however you choose.

We offer to see our future through your eyes. And Father, we thank you that when we can only see a little ways, almost like Paul's writings that we see in a mirror dimly. But, Father, we know that on this earth there are times what we will see clearly. So, Father, thank you for the clarity of vision and sight that you give us.

Thank you also that as we place ourselves in your hands, we trust the placement. We are yours. Spend us how you choose. Amen. Amen.
